-: WORKS EXPERIANCE :-

Fullstack Development | Intern

1. **I joined as Intern for fullstack-development on Python technology in *Softpro India Computer Technologies Pvt. Ltd. Lucknow*** *Jul 2025 - Dec 2025*
   - An organisation specialising in technology solutions.
   - Gained hand-on experiance in fullstack-development.
   - Worked on *Smart Build Hub Web Application* while improving skills in python, Django, Bootstrap, and Js.
   - Overcame real-time challenges by providing Efficient solutions.

-: PROJECTS :-

Smart Build Hub Web Application

- Using Html, css, bootstrap, js, python, django, sqlite etc.
- The SmartBuild Hub is an innovative digital platform designed to transform traditional home construction method.
- Utilising advanced technologies such as modelling, and intelligent project management system.
- This platforms streamlines the entire Home-Building Process and connecting directly home owners to constructor.

The Blogify website

- Using Html, css, bootstrap, js, python, django, sqlite etc.
- Built a full-stack blog application with Django featuring admin authentication, CRUD operations, responsive UI, and SQLite database integration.
- Improved content management efficiency by centralizing blog operations through an admin panel
- Applied backend validation and access control to prevent unauthorized actions.

Indoor Campus Navigation System

- Using Html, css, bootstrap, js etc.
- In smart campus navigation system I design a map system for our collage so that the user scan the QR code and reach the destination.
- The main goal of this project is to help the people in large campus area like AIIMS, IITs etc. to navigate easily and reach without taking help of other person.
