-: WORKS EXPERIANCE :-

Fullstack Development | Intern

1. **I joined as Intern for fullstack-development on Python technology in *Softpro India Computer Technologies Pvt. Ltd. Lucknow*** — ***Jul 2025 - Dec 2025***
   - An organisation specialising in technology solutions.
   - Gained hand-on experiance in fullstack-development.
   - Worked on *Smart Build Hub Web Application* while improving skills in python, Django, Bootstrap, and Js.
   - Overcame real-time challenges by providing Efficient solutions.

-: PROJECTS :-

Smart Build Hub Web Application

- Using Html, css, bootstrap, js, python, django, sqlite etc.
- The SmartBuild Hub is an innovative digital platform designed to transform traditional home construction method.
- Utilising advanced technologies such as modelling, and intelligent project management system.
- This platforms streamlines the entire Home-Building Process and connecting directly home owners to constructor.

Indoor Campus Navigation System

- Using Html, css, bootstrap, js etc.
- In smart campus navigation system I design a map system for our collage so that the user scan the QR code and reach the destination.
- The main goal of this project is to help the people in large campus area like AIIMS, IITs etc. to navigate easily and reach without taking help of other person.

Websites Frontened Part

- Taj Hotel, Rolls Royce, Flipkart, The Hazelnut Factory, Restaurant Website, Online Food Delivery Website, JioMart, College Website
- These websites are developed using HTML, CSS, Bootstrap, Javascipt.
- Responsive web design which enhance user experiance.
- These websites include home pages, login pages, registration pages, about pages etc.

- Github Link : github.com/abhiraj723

-: CERTIFICATION & ACHIEVEMNTS :-

Artificial Intelligence | Techgyan at IIT B.H.U.

- I completed the 2 days workshop conducted by Techgyan Technologies on Artificial Intelligence in association with Kashiyatra at INDIAN INSTITUTE OF TECHNOLOGY B.H.U.

Introduction in Javascript | SimpliLearn

- I completed the 12 hours video lecture of Javascript and learn the Javascript working like DOM manipulation, Arrays etc and build some projects related to it.

Advanced Python | Simplilearn

- I learn the python programming language from scratch including oops concept, frameworks like pandas, matplotlib, numpy etc.

Introduction to Generative AI | Goggle Cloud

- I learn the concept of generative AI. In this i learn the creating text, images by learning pattern from existing data.

Hackathon | Techgyan at IIT B.H.U.

- I participated in Hackathon at IIT B.H.U. and successsfully completed the task given. In this Hackathon we trained a model that recognise name of animal by their face.

-: DECLARATION :-

I solemnly hereby declare that all the above information is given by me is true and correct, the best of my Knowledge.

Thank You **Abhishek Ku. Rauniyar**
